## VOTING AWARENESS

The people of India. One of the upcoming superpower countries are happily living with all brotherhood & peace, is because India is a free, secular, and a lawfull country. The people are free to live our lives with our own dreams and ways, no enforcements. That is we are the rulers of our own fates and destinies. This all came to be possible because we are a democratic country. "Democracy" the word contains just eight simple alphabets of English language but are much powerfull than its pronunciation. The meaning of true democracy is "common citizens are given their rights to elect their ruler, who will then govern the whole system and the country as well".

Democracy, usually tends that the government is all by the people, to the people and for the people. But we are here in an era of a lots of dirty politics, corruption, declination of education & medical facilities, etc. So the question arises who's responsible for all this declination around us in our country, in a mother land. Is it them politicians? Is it teachers or is it doctors? No, the only responsible person behind all this is we. We have the power to elect, we have power to choose, we have our options, we have our future in our hands. We have everything what we want in our fingertips. We have our precious "votes". One and, each and every vote as a voter can set our future is a bright side.

But people of our generations thinks our responsibility of voting as a burden. They are so busy with their life that they just vote to them who are even not capable of governing a few states. Just an illiterate candidate with all his man and financial power. Even we people sell our votes for some money just because we are poor and money can help us feed our belly. But if we elect a good governing body we can feed our generations with all that what we never got.

Finally we have our powers and our choices that what we want & what we get. Our votes can change our futures. So the powers to change your fates is within ourselves.

## **Report on Road Safety Awareness Program**

**Programme Name** : Road Safety Awareness  
**Organized by** : Applied Science and Humanities Department  
**Venue** : G.M.Vedak Institute of Technology, Tala.  
**Dated on** : 29/08/2019

A Road Safety Awareness program was organized at our college premises on 29/08/2019. The dignitaries who shared the session were the Mr. Suresh Gengaje Police Inspector, Tala. The session was very useful for students like us and he was focusing on the safety measures to be followed while riding.

The program was started with felicitation of guest, welcome address and introduction of guest given by Head of Applied Science & Humanities Department Miss R.B. Ghuge madam. Our honourable Principal Dr. D. N. Jaiswal sir had addressed to students and they shared importance of this program. The speech delivered by the Mr. Suresh Gengaje was very informative and he provoked the undeniable truth that "each one's safety is in their own hands" as well on the importance of a how precious each one's life is.

Mr. Suresh Gengaje mainly focus on several measures have been undertaken by the students for the safety of the travellers on road as

- ❖ Seat belt wearing is an important rule for the people traveling in the front seat of the four wheeled vehicles. Heavy penalties have been levied in certain states for the people who violate the rule. This is a major safety measure taken by the government. The wearing of the seat belt reduces the risk of major injury if accident happens and surveys have proved the fact.
- ❖ Two wheeled vehicle drivers have to wear helmets and failing to do so can lead to heavy penalty. Measures are taken by the government for the benefit of the people.
- ❖ Use of cell phone while driving is prohibited. But hardly people try to follow the rule sometimes. To prevent this, preventive measures like fine payment has been levied on the citizens who are found driving and talking on the mobile simultaneously.
- ❖ Red light jumping and no lane driving is another hazard in maintaining road discipline. This is the reason why the government has taken the measure of penalty payment of red light jumpers.
- ❖ Over speeding also leads to punishment and many people end up paying fine. The students were very much enlightened by his motivating speech because at this age we ride for fun.

### **CESA Arranges Blood Donation Camp**

On the 23<sup>rd</sup> march, 2018, we the "Association of Civil Engineering Students" organized a successful Blood Donation Camp in our Campus. Blood Donation is an important and foremost sense of duty of every human being which saves the life of many humans who needs it in urgent situation.

● The team who supports us for Blood donation camp was came from Jankalyan Blood Bank, Mahad. During Blood Donation all ACES volunteers and college staff supported very well throughout the whole activity.

● **Mr. Mhaskar** from Jankalyan Blood Bank supported through out the whole camp take place in college with reference to our respected Principal Dr. N.Y.Patil to promote and encourage to all students for Blood Donation.

The Camp was started exactly at 10.00 am and was continued until the 2.00 pm. All the students as well as outsiders gave an excellent response for the Blood Donation Camp. It was pleasure to work for such an activity to all of us on that day and the Camp was successfully accomplished with everyone's support.

It is a proud feeling after completing this blood donation camp. As our college is in rural area & grooming day by day, we are planning more eagerly for such kinds of events.

● Association of Civil Engineering Students conducted a BLOOD DONATION camp in the campus in association with the Jankalyan Blood Bank on 23 of March, 2018. The current 3<sup>rd</sup> years students planned and organized this event and to their surprise the response was huge. Many students voluntarily came up to donate the blood. The organizers of this pragmatic event were Sidhhant Desai, shreenath bhosale, Sawroop Rajpurkarto name a few.

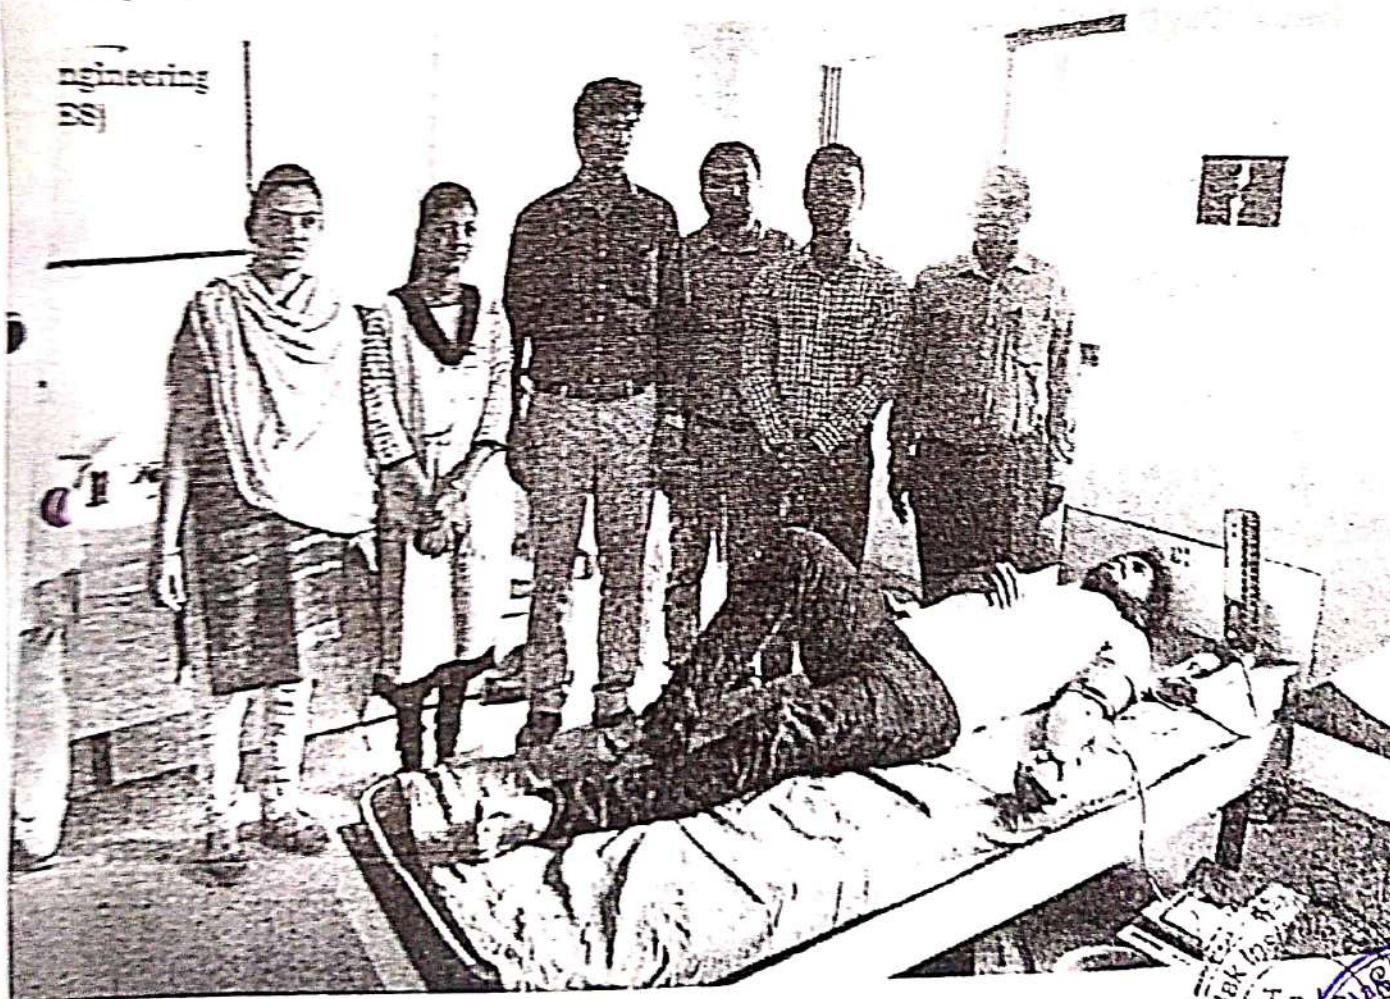

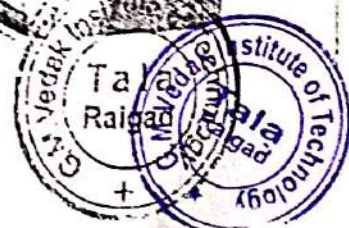

In the camp the hemoglobin content of the students were checked before donating the blood. Clearly telling the students about their health condition. Many checkups for blood pressure and other tests were conducted by the doctors.

Our Principal Dr. N.Y. Patil, dean of academics Mr. V. Shelake, HOD of Computer and IT Dept, HOD of Applied Science and Humanities Mr. Deshmukh made there gracious presence in the camp which started at 10.30 a.m and went upto 2.00 p.m.

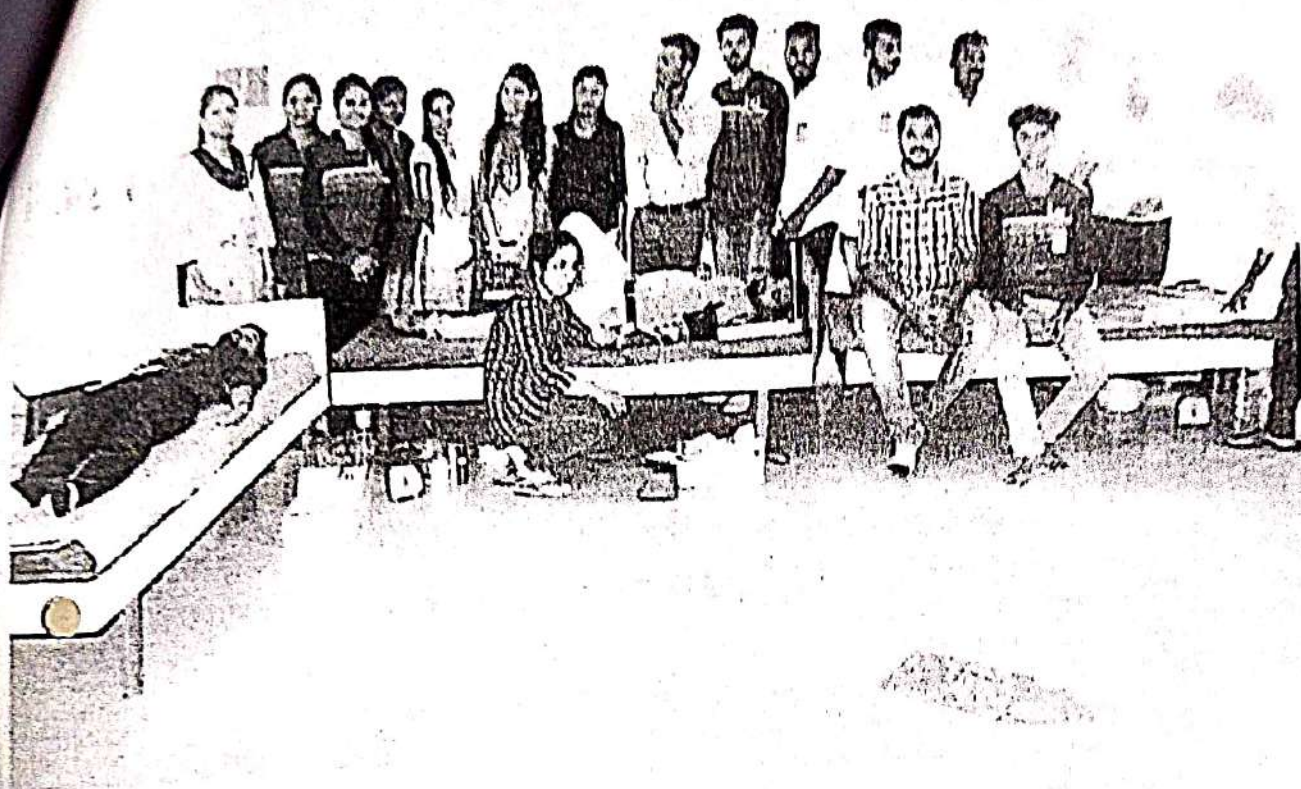

Refreshments were provided to the students who were part of the camp. The HOD of Civil Department Mr. Ajeet kumar took immense care to meet the requirements of students after donating the blood, so as to avoid any mishaps in the campus. Today accidents have increased and blood is very much in need for each and every hospital. we students don't feel so much responsible to go to blood banks and donate the blood. therefore conducting such events in college would surely make us aware of our health as well as the need of blood in this world. The huge words and quotes on the posters had an impact on the student. attracted us and made us to donate the blood. This time the camp is organized in a very disciplined manner checking each and every aspect of our health. Would like to see such camps and many other such events happen in our college."

Choosing one's career or making a career decision is perhaps one of the most important decisions that a student and his/her parents take. Taking a career decision usually get influenced by a host of factors, including the parents' own inclination, the child's own interest and the opinions reflected by the media.

**Objectives of Program:**

1. To Guide students of HSC about different career options
2. To inform students regarding various Entrance Test and Scholarship schema by Gov of India

Department of Computer Engineering, organized a career counseling session for students class 12<sup>th</sup> on in the Seminar Hall.. Career decisions play a pivotal role in shaping the future growth and development of students. In today's environment of multiple options, knowing about choices available helps children in their decision-making process. The session commenced with Department head, Prof. Kunekar P.R. reiterating the importance of knowing one's potential and subject of interest before making a decision. He also laid stress on the right combination of subjects as per their aptitude which should be reflected in their academic performance.

The session aimed at making the audience aware of the multiple career options available. He also shared information regarding leading universities and various courses available. He urged the students not to make decisions based on family expectations and peer pressure. He guided the

students to identify their interests and what they are good at. He also advised them to plan multiple activities during their vacations to hone their skills. The session was informative and enriching for students as well as parents.

Total 65 students benefited by session.
